

A LETTER FROM THE PRESIDENT

Dear Friends of the FMDSA,

This year has been another whirlwind of events. As President of the FMDSA Board, I am astounded by the accomplishments of those that support the organization. As stated last year, by organization, I refer not only to the Board members of the FMDSA, but to the FMD patients, family members, Doctors, supporters, and all those that have helped us through 2014.

There are always too many tasks and not enough time, money, volunteers or pages in this letter to get everything done necessary to surpass our goals. However, I am so incredibly proud of the numerous successes the FMDSA has achieved in the year just passed, 2014.

The FMD registry we started is now the foundation for collecting data of actual patients throughout the country. This data is just now being used to help unlock the mysteries of FMD. This, along with our new international network of physicians is bringing more understanding to the disease every day. The 2014 Annual Meeting exemplified this by our unity with the International Doctors FMD Symposium held at the Cleveland Clinic just prior to our meeting. Imagine the history making of all these top FMD Doctors together in a room for several days. Unbelievable!

Although our awareness efforts have always been over the top, we outdid ourselves this year. We are now a valid component of the Cleveland Marathon and our name is all over the place the entire month. Some other notable things that stand out in 2014:

- Attendance at the first International FMD Research Symposium
- 2 Winners with FMD posters at the Society of Vascular Medicine Young Investigators award competition
- Several articles published in Medical journals including Coronary Artery Manifestations of FMD
- Oklahoma University Medical joined our registry
- FMD awareness day became official in the State of Michigan

And much, much more information can be found on our website FMDSA.org. People are starting to look to FMDSA as the conduit for bringing awareness, researchers, and caregivers to those in need.

As you can see by the financial reports on the next few pages, we are performing beyond expectations considering the financial aid we receive. In this day and age all non -profits are fighting for survival. We are fortunate to have the backing of some very generous donors to help us do our job. As a Board member, I can tell you that we will always be there to support our members, fight to understand FMD and one day find a cure.

Our job would be much easier if there were more people like you that have already shown their financial support for the FMDSA. So, next time you realize you are utilizing the website, newsletter, registry, or just gained some FMD knowledge, think about giving back and helping support our cause. Remember what the FMDSA did for you, and how it may help others to better understand and cope with the disease. It is your contributions and generous support that make it all possible.

Thank You

Bradley J Daar DDS and the Board of the FMDSA
